PayBridge card acquiring — service level agreement

This agreement covers the card acquiring connection between PayBridge and the payments platform. Effective from 2026-01-01.

Availability

PayBridge guarantees 99.95% monthly availability of its authorisation API. Planned maintenance is announced 5 business days in advance and is excluded.

Service credits

If availability falls below 99.95%, PayBridge credits 5% of the monthly fee; below 99.5%, 15%. Credits must be claimed within 30 days.

Incident communication

PayBridge notifies the platform's SRE team within 15 minutes of detecting an incident that affects authorisations. Delays caused inside the platform (for example in ledger-service) are not covered.
